

GENEVIEVE

GUEST CHAIR

TUOHY

Genevieve Guest Chair

Design: John Nelson

Genevieve adapts the pure, modernist geometry of mid-century seating forms and applies it to an array of seating requirements for today's workplace environment. The guest chair offers a mix of finely polished or resin-coated steel components and exquisitely executed upholstery and stitch detailing. Seat cushions use high-density foams for long product life but with resiliency quotients intended to safeguard ergonomic comfort.

ELEGANCE WORKS
